

ALL DISTRICT HONORS—Five Piper basketball players and their coach were honored by District 6-AA coaches last week when the All-District selections were made. Pictured left to right, Alan Steele and Steve Williams, both received honorable mention; Gerald Rodgers and Delbert Thompson, both named to the first team; Charles Brown, honorable mention; and Coach Tom Dechairo, coach of the year. Rodgers and Thompson are holding their trophies for being named to the All-Regional team in Lubbock Friday.

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

Hope that none of the Hamlin basketball fans got up Saturday morning, read the Abilene Reporter-News and headed out for Lubbock to see the Pipers play Childress. In spite of what the Abilene paper said, the game was played on Friday.

It was an emotional heart-breaker for the Hamlin players, coaches and fans to lose by two points in overtime to Childress. But everyone can be very proud of this basketball season and anyone who saw the game Friday knows that Hamlin could have won the game just as well as they lost it.

And after the battle these two teams put up in the first round, neither one had a chance against Morton who coasted through their first game.

I just don't understand why that when you get this close to the state championship that you have to play two games in one day.

While it is true that both teams in the finals have played an earlier game, all too often one will draw a weaker opponent and have a much easier first game. This was true Friday in both Class AA and Class A.

It seems to me that the Regional playoffs are important enough to warrant two days. The Regional Tournament held in Denton for the Region east of us was two days. If it is just a matter of Texas Tech or Lubbock not wanting to fool with it then I think it is time the Superintendents got together and found someplace else to play.

I thought it was bad enough for Hamlin to play at 11:30 on Friday morning and was very impressed with the number of people from here at the game. The first Class A game Friday was played at 8:30 and the second one at 10. Now this can not be anything but ridiculous.

This is Texas Public School Week and if you have children in school or are just interested in public schools I would urge you to attend the open house tonight. While parents are constantly being urged to stay in contact with their children's teachers and other school personnel, this is the easiest time for most of us.

Application for new motor vehicle registration plates is more simple in Texas this year than at any time since World War II, according to a news release from the Texas Department of Highways and Public Transportation. But the same news release tells of a number of foul ups by other wise intelligent motorists.

A motorist in Corpus Christi was very careful to put the validation sticker in the proper position on the rear plate — except that it was his neighbor's car. Both vehicles, parked side by side, were red.

In Amarillo a motorist paid for his sticker and immediately went

Only One Contested Race In Local Elections

Only one contested election had developed by noon Tuesday in the city, school and hospital elections set for April. Deadline for filing for the city and school was Wednesday afternoon and the deadline for the hospital district is Friday.

Three candidates are seeking the two places on the Hamlin Independent School District board of trustees. Sam Mack Hodges has entered the race along with the two incumbents who are seeking re-election. Lewis Earl Madden and Clyde Lewis are seeking re-election.

No contest had developed in the city races with Robert Fowler the only candidate to announce for mayor. He is currently serving as coun-

cilman and will resign this position if elected. Mayor Joe E. Ford is not seeking re-election.

Three positions are up for election on the council with two positions for two years and one for one year. Richard Young and Pat Willoughby are incumbents seeking re-election and Luther Haught will be seeking his first term on the council.

Willoughby is seeking the one year term as he was appointed to the council to replace Buddy Killion until election.

Pipers Lose to Childress In Overtime At Regional

The Pipers lost a heart breaker to Childress in overtime in the Class AA Regional Semifinals Friday, 69-67. Still exhausted from their hard fought game Friday morning, the Childress Bobcats fell to Morton in the finals Friday evening, 68-42.

The Pipers landed two players on the five man All-Regional squad with Gerald Rodgers and Delbert Thompson making the elite team. Joining the Hamlin pair were Mike Williams and Kenneth Standmire both of Morton and Ivan Johnson of Childress.

The Pipers trailed by two at

Fire Chief Warns About Trash Fires

"Please do not burn your trash and other rubbish until we get some rain," is the plea Monday of Jimmy Hastings, chief of the Hamlin Volunteer Fire Department.

The Department has been plagued with grass fires both in the rural areas and within the city. Most of the fires within the city have been caused by carelessness and from people burning their trash.

With almost no rain this year alleys and yards are extremely dry and this makes it very dangerous to burn trash in the alleys, he said.

the end of the first period, 18-16, were ahead by six at half-time, 38-32, but then Childress cut the lead to two at the end of the third period, 52-50, and then went ahead by as much as five points before the Pipers tied it up at the end of regulation time, 65-65.

Rodgers scored two points early in over-time to put the Pipers out front and then Childress tied it up again with 1:21 left. Johnson hit two free throws with four seconds left to put the Bobcats out front, 69-67. With time running out, Thompson's shot from outside the free throw circle rimmed out and Alan Steele tried to put it back up as the buzzer sounded.

This thriller was knotted 12 times and the lead changed hands four times. Hamlin's biggest lead was six points (50-44) with 1:29 left in the third period and Childress' biggest pad was five.

Rodgers twice drove the lane in the final 90 seconds to pull Hamlin close and Steele tied the game up and forced it into overtime at the free throw line with 57 seconds left in regular time.

Rodger's drives, Thompson's rebounding, outside shooting and inside moves paced the Pipers and earned the pair their All-Tourney honors.

Improving

Dr. M. L. Smith, local physician, is progressing nicely at Hendrick Memorial Hospital where he was taken after suffering a coronary attack here Thursday, Feb. 12.

He was in the intensive care unit and later in the post-coronary unit. He is now in room A601.

All parents of school-age children and others who are interested in the public school system are invited to visit the schools at any time and especially during the hours of open house, Hawes said.

Open house in the high school and the new administration offices will be from 7 to 8 p.m. Primary, Elementary and Junior High open house will be from 7 to 8:30 tonight.

All classrooms not in use by the Adult Education program will be open to the public with teachers available to assist the parents with any questions concerning their children. The student's work will be on display.

Texas Public Schools Week was organized in 1950 so that community members might have the opportunity to see first-hand how their local public school system operates.

"This 26th annual observance of Texas Public Schools Week is an ideal time for members of this community to visit schools and to evaluate, first hand, the system as it works for all children. Consider a visit to a classroom not only a privilege but an obligation.

The public school system belongs to you. After all, you're picking up the tab," Hawes said.

Mayor Proclaims DECA Week

Mayor Joe E. Ford has joined Texas Governor Dolph Briscoe in proclaiming March 7-13 Distributive Education Week here.

The Hamlin Chapter of the Distributive Education Clubs of America (DECA) will be taking part in this special week.

The Hamlin program, under the direction of Carlton Taylor, has 30 high school students enrolled. Twenty of the students are working in various businesses in the community while 10 are in the classroom phase of the program.

In issuing his proclamation, Mayor Ford noted that "The marketing and distribution of goods and services are essential to the well-being of the citizens of this city, and Distributive Education students of our community are engaged in these vital tasks through part-time, on-the-job training in retailing and related businesses."

Distributive Education is a vocational training program for students who work or want to work in the retail, wholesale and service-selling fields, Taylor said.

The major objectives of Distributive Education are the developing of job skills, the providing of technical knowledge and occupational understanding, and improving the judgment and efficiency of people preparing for employment, or who are already employed in the field of distribution. Distribution is the business of moving, storing, and selling goods from the producer to the consumer, he noted.

Hamlin has a combination Co-op (Cooperative part-time training) and P.E.L. (Pre-employment laboratory training) program. Co-op students must be at least 16 years of age, junior or senior classification, attend classes in the morning and work in the afternoon at a retail business in Hamlin; whereas, P.E.L. students must be a sophomore or junior classification, attend classes all day, and part-time employment experience is not required.

Taylor, as the Distributive Education teacher-coordinator, interviews and screens the students wishing to apply for the Co-op program. If a student is

convinced that he would like to choose a specific occupation as a career and if the teacher-coordinator feels that the student is fitted for the work he has chosen, he refers him to one or more employers who have expressed a desire to participate in the training program.

The student is then interviewed by the employer and upon acceptance, goes to work for the firm on a part-time basis. The student goes to school during the morning, taking among other subjects required, the course in Distributive Education.

During the afternoon, under close supervision of the employer, the student works at his training station. The teacher-coordinator coordinates the training given in school with that received on the job, working with management in effecting a logical training pattern designed to give the student, within the two-year training

period, a comprehensive working knowledge of this chosen occupation.

Upon graduation, the student may continue in the field as a full-time worker, or he may decide to enroll in a college where he may, during the first two years, continue in a distributive and marketing associate degree program. During his last two years of college, he may elect to choose a curriculum designed to further his knowledge in his occupational field or he may elect to enter a major which will prepare him for a D.E. teaching career.

The program of Distributive Education in Texas high schools has grown from only eight programs in 1937, the first year Distributive Education operated, to over 560 programs at the present time.

The D.E. program at Hamlin High school is in its third year of operation.

"These are the
sorghums I'd
plant if I farmed
in this area."

Jim Higdon

AGRONOMY SERVICE DIRECTOR

"Drouth, disease, insects, wind storms . . . taking everything into account that can plague a crop in this area, these are the sorghums I'd go with."

It's my job to know which are the best varieties for each locale in the states of Oklahoma, Texas and New Mexico. For the last five years I've had Crop Information Centers, Standard Comparison Tests and Uniform Strip Tests in this immediate area. In these carefully controlled tests, I've evaluated most of the sorghum varieties a farmer might consider planting. I've had the same headaches and frustrations you've had. My plantings have suffered the same weather conditions, epidemics and infestations yours have.

Based on these tests, there is no doubt in my mind what I'd plant in 1976 if I farmed hereabouts.

8501

An outstanding new yellow endosperm hybrid with about the same maturity as 846. This hybrid has a superior yield record. The plant has excellent roots and stalks. Heads exert well above the flag leaf and are uniform in height. Pioneer brand 8501 has good tolerance to smut, MDMV, downy mildew and greenbugs. It performs well under stress and has semi-open heads that add to its good appearance.

A WORD ABOUT GREENBUGS

Tolerance to both greenbugs and maize dwarf mosaic plus high yield potential give 8501 an economically significant advantage that you'll want to consider for your grain sorghum crop in 1976.

846

"Old faithful" is the best name for this Pioneer variety. It has been producing profitable sorghum yields for farmers in this area for many, many years. Though medium maturity, it produces with full-season varieties in good years and still does well under stress. It resists drouth, smut, rust, MDMV and tolerates secondary downy mildew infestation. It makes a good planting partner.

Performance of seeds or the crop produced therefrom may be adversely affected by factors beyond our control including environmental conditions, insects and diseases. The limitation of warranty and remedy attached to each bag of Pioneer brand seed is a part of the terms and conditions of the sale thereof.

the gospel truth

by Bro. Marshall Townsley

"In the beginning was the Word, and the Word was with God, and the Word was God." John 1:1

The Word WAS and still IS God. It is alive, and powerful, and sharper than any two edged sword, piercing even to the dividing asunder of soul and spirit, and the joints and marrow, and is a discerner of the thoughts and intents of the heart. Neither is there any creature that is not manifest in his sight: but all things are naked and opened unto the eyes of him with whom we have to do. Heb. 4:12, 13

The Word MUST BE the basis or new source for those who have been born again and filled with the Holy Ghost. It is written, "Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God. Matt. 4:4 If the new creature in Christ tries to feed himself on endless theology, books, or histories, he will utterly be destroyed because he has not fed himself properly. You are responsible for the unbelief and death that enters into your new spirit. Would you feed a new born baby arsenic through a bright blue bottle? Christians have done no less by compromising with what they feed themselves although it may appear

pleasing to the senses. Thank God for His Word! It stands forever.

If the Word of God does not rule the heart and lives of individuals and is not final authority then neither is God because they are one in the same as our scripture reference states.

"Yea, let God be true, but every man a liar; as it is written, that thou mightest be justified in thy sayings, and mightest overcome when thou art judged." Rom. 3:4 On the whole, people who call themselves Christians, would rather put their trust in the word of a good friend, pastor, doctor, banker, or lawyer than to place their total trust in the unchangeable word of the living God. Don't be deceived beloved brethren; By submitting yourselves to man, you submit yourselves to his failure and limitations. Man's technology, as vast as it is, will never exceed his five senses. God has never failed; he is not limited. Hallelujah! "It is better to trust in the Lord than to put confidence in man." Ps. 118:8

I thank God for the people who have surely put their lives on the line before Him. These people are not moved by circumstances but are moved by faith in God's Word. They're bought by the precious blood of Christ, filled with the power of the Holy Ghost, and they are uncompromisingly righteous in their convictions. They are His Church and they have just begun to shine! Praise God! I am one of them. How about you?

If your heart has been stirred by his ministry, and you have questions or needs, we welcome your letters.

THE BICENTENNIAL KITCHEN

COLONIAL RECIPE COMES FROM WILLIAMSBURG

Step into the past, three centuries ago, when Williamsburg, Virginia, was the capital of the colony and the center of its hospitality. A fashionable colonial housewife paid great attention to the table she presented, for she was judged not only by the quality but also the variety of dishes on the table. Dinner was always a splendid affair, served in an English or French fashion.

One of the "musts" in colonial Williamsburg was a variety of desserts to offer guests—puddings, pastries, jellies, sweetmeats. Cakes were closely associated with family and social life, whatever the occasion. Pancakes for St. Valentine's Day, Bride's Cake for weddings, fruit cakes for Christmas, an elaborately decorated Twelfth-Night Cake.

Williamsburg Orange Cake was a favorite all-occasion dessert. This version is a simple one layer cake, flavored with orange peel, raisins, walnuts and the buttery taste of Blue Bonnet Margarine. The creamy frosting, also Williamsburg inspired, is made with confectioners' sugar, economical Blue Bonnet Margarine, orange peel and a delicate touch of creamy sherry.

Try a memory from 18th Century Williamsburg for dessert, served with hot tea or coffee.

WILLIAMSBURG ORANGE CAKE

- 1/2 cup (1 stick) softened Blue Bonnet Margarine
- 1 cup sugar
- 2 eggs
- 1 teaspoon vanilla extract
- 1-2/3 cups unsifted flour
- 1 teaspoon baking soda
- 1/2 teaspoon salt

This Williamsburg-inspired Orange Cake brings memories from three centuries past. It is flavored with orange peel, raisins and nuts and is topped with a sherry-orange flavored frosting.

- 1 cup sour milk or buttermilk
- 1 cup chopped dark seedless raisins
- 1/2 cup coarsely chopped English walnuts
- 1 tablespoon grated orange peel

In a large bowl, cream together Blue Bonnet Margarine and sugar until light and fluffy. Beat in eggs and vanilla extract.

In a small bowl blend together flour, baking soda and salt. Add to creamed mixture alternately with sour milk, blend well after each addition. Stir in raisins,

English walnuts and orange peel. Pour into well-greased 8 x 8 x 2-inch baking pan.

Bake at 350°F. about 50 minutes, or until done. Cool in pan 10 minutes. Remove from pan and cool on wire rack. When cool, frost with Orange Wine Icing (below). Makes one 8-inch cake.

Orange Wine Icing: Combine 2 cups unsifted confectioners' sugar, 1/3 cup softened Blue Bonnet Margarine and 1 tablespoon grated orange peel in small bowl. Add 2 tablespoons cream sherry and beat until smooth.

The Troop went to the lake Friday afternoon, pitched their tent, and set up camp. Volunteer supervisors for the camp out were J. O. Murphree, Ellis West and Herbert Crouch. The girl scouts who participated in the camp out were Judy Crouch, Sharon Ford, Teresa Gregory, Lisa Hawes, Leona Johnston, Deana Pritchard and Susan Watts.

Each night the girls built a campfire, recited their Promise and Laws and sang songs.

After an early breakfast Saturday morning, they went on a 15-mile hike around the lake, returned for lunch and then had a short rest period. Saturday afternoon they had team canoe races, relay foot races and were awarded ribbons for first through fourth places in these races at the campfire session Saturday night.

Some parents joined the group for a hamburger supper Saturday night. Following supper Mr. Tom Nall brought his hunting dogs and they went coon hunting.

Sunday morning following breakfast, the troop attended the Baptist Church at Neinda. They had Mulligan stew for lunch and broke camp about 2 p.m.

The Hamlin Girl Scouts Leaders voted to spend a large portion of their United Way Money and buy the Girl Scout Flag. The World Association Flag, plus three staffs and three floor stands, for these flags. "These flags, staffs and stands are quite expensive and this is the first year we have had funds to purchase them," the leaders noted. They were ordered and should be here in three to six weeks, the leaders added.

A THANK YOU

A very special Thank You to all the citizens and business men of Hamlin who decided the Girl Scouts Hut needed a new roof and donated to this.

Some knew our new wallboard would be ruined if it ever rained. Benson Payne, Steve Feagan and several others collected enough last week to have a new roof completely installed and by Friday Jimmy Landum had the work completed.

This was quite a surprise to the leaders and girls but we appreciate it so much and thank all the citizens for supporting the Girl Scouts.

The Annual Girl Scout Father-Daughter banquet will be Friday, March 12, at the high school cafeteria. The meal will be catered by Jordan's. All girls are to have \$2.50 for themselves and \$2.50 for their father in to their leader by March 5.

Attention to Girls Scouts Don't forget Girl Scout Sunday at the First United

Methodist Church. Please make an effort to come. Troop 316 and Troop 354, Mrs. Ken Prewitt's and Mrs. Thomas Welch's troops will go to the park after church for hamburgers and drinks (No charge to the girls). Parents of these girls are to pick the girls about 1 p.m.

FROM THE FILES . . .

FIFTY YEARS AGO

(February 26, 1926)
Monday the bankers of the Seventh District met in convention in Fort Worth with an attendance of about 700 present. Hamlin was well represented by both banks. Those going from here were Tate May, Cashier of the Farmers & Merchants National Bank, L. W. Ezell, Director of the same bank, Miss Tennie Barnett, Assistant Cashier and Edward Fizer. From the First National Bank, Assistant Cashiers, Mr. Pat Henry and Miss Lennie Greenway. Accompanying one part of the number were Messrs. Chas. H. Strauss, Glen Jones and John Denton who went to Fort Worth and Dallas on a mixed business and pleasure trip.

For some time it has been known that the churches of Hamlin have not kept pace with the material progress of the town so far as adequate church buildings were concerned. While practically all the other towns in this section have built substantial houses of worship, Hamlin at the present time does not have a single house of worship which is modern and in keeping with the splendid growth of the town. Not only are all the churches of the town seriously handicapped in carrying on the activities of the church, but there is no building in the town of sufficient seating capacity for taking care of the people of any extraordinary occasion. For some time the Methodist congregation has had in mind the construction of a modern house of worship, and during the week a movement was launched which it is hoped will result in the erection of a church building which will be a credit to the town and community. The program calls for the tearing down of the frame building and the construction of a modern house of worship, with basement and a commodious auditorium, to cost approximately thirty-five thousand dollars. Several thousand dollars have been promised, and the co-operation of the entire citizenship of the town and community is greatly desired in order to put over this worthy program.

By order of the City Council of the City of Hamlin, all "Dry Closets or Privies" situated between Union and Farwell Avenues, and 5th Street and the Orient Ry., are declared a public nuisance and are hereby condemned, and ordered removed from the above defined districts within 60 days.

All property owners within the above district who are not already connected with the City Sewer System, are requested to connect with same at once.

TWENTY YEARS AGO

(March 2, 1956)
Voters of the Hamlin Consolidated Independent School District went to the polls last Saturday in probably one-fifth of their voting strength and approved a \$150,000 bond issue that would provide funds for a new gymnasium and band hall by a 126 to 15 vote.

One hundred and forty-one votes were cast in the day-long election held at the high school building.

School officials declare that proceedings for the plans and specifications for the new structure are being rushed, and that actual construction on the building is hoped to get started by May 1. If work can be started on that date, the building should be completed by December 1.

Mayor Willard Jones and three city councilmen, Gene Prewit, B. O. Bell and W. S. Seals, have consented to have their names placed on the city election ballot for re-election in the forthcoming Hamlin city election on April 7.

The four members of the City Council are serving their first terms in office.

Hold-over councilmen are A. Spencer and L. H. McBride, whose terms expire in April, 1957.

Boy Scouts and Cub Scouts of Hamlin were honored guests last Monday evening when the annual blue-and-gold banquet was held at the Primary School cafeteria, celebrating the forty-sixth birthday anniversary of Scouting.

Jerry Duncan was master of ceremonies. Following the invocation, Joe Stephens led the group in a song. The pledge to the flag was given by the Lion Cubs.

Weldon Johnson, Scoutmaster, presented awards to the following Boy Scouts: Jerry Smith, Jerry Duncan, Jerry Warnell, Milburn Crawford and Harry Martin Jr.

The following scout leaders were recognized: Edgar Duncan, John D. Ferguson, L. Grimm, H. S. Stovall, Ray

Johnson, Grady Smith and Roy Cooper.

First test of the strength of the Hamlin High School track and field this season is scheduled this afternoon (Friday) at the new Hamlin track when a three-way series of events will be conducted. Stamford and Anson are the other schools in the triangle competition, according to Hamlin Coach Jim Herridge.

TEN YEARS AGO

(March 3, 1966)

The Piperettes mauled Marfa Saturday night, 61-30, in a game played at Coahoma to earn the right to play in the Regional Tournament to be held in Lubbock Saturday. The girls will meet Granbury in the first round at 12:30.

The Piperettes took an easy victory over their first round playoff foes Saturday night as they clipped Marfa to the tune of 61-30. Judy Jenkins outscored the entire Marfa team as she rolled up 33 points.

Judy sank 11 charity throws and 11 field goals for her 33 points. She was followed by Linda Bailey with six field goals and eight free throws for 20 points.

The Hamlin High School Stage Band brough home third place honors Friday from the Stage Band Contest in Brownwood.

to the parking lot of the county courthouse. He applied the sticker to the rear license plate — of the vehicle owned by the assistant county tax assessor-collector. Same make, same model, same color — wrong car.

One woman received her sticker in the mail. She wanted to see how well the "stickum" on the back worked. She put it on the kitchen table. It worked fine. She scraped off the pieces (and part of the finish on the table) and returned them to the tax collector for replacement.

Another woman laid her sticker on the kitchen table. Her young son picked it up and put it on his bicycle.

Another motorist went back to his tax assessor-collector. He was plenty mad as he displayed a sticker almost obliterated with holes. "I'm having a (deleted) time stapling this (deleted) thing to my metal plate," he fumed. The information "staple here" is for information of the tax collector's office to indicate where to attach the sticker to the registration receipt. He got a new one.

A motorist with four vehicles paid for four registrations. He applied the four stickers to the front and rear plates of two cars. Then he read the instructions.

So a reminder or two from the motor vehicle Division of DHT:

(1) Read the instructions for applying your sticker. The instructions are available both in English and Spanish.

(2) If you louse it up, carefully scrape off all the sticker and put the pieces in an envelope.

(3) Take the sticker pieced, with your registration receipt, to the county tax assessor-collector's office or substation.

(4) Take along \$1.30 for the replacement fee for each new validation sticker.

(5) Now, have you got that right, cousin? If not, re-read the instructions.

CRUISE IN THE OFF-SEASON

Although most people prefer to take their cruise during the peak of the season for all the glamour, excitement, and crowds it offers, others enjoy the quiet and restfulness of the off season cruise. Tourists are not present in such great numbers; interesting places can be visited more leisurely and at greater length.

Some people prefer to pray only when they are in church or at some great public gathering where the prayers are led for them. But our Lord said to pray in the "off-season." He

said, "But thou, when thou prayest, enter into thy closet, and when thou hast shut thy door, pray to thy Father which is in secret; and thy Father which seeth in secret shall reward thee openly." The real joys of prayer are truly found when you are praying alone with God. The scripture says to be instant in season and out of season.

The church would encourage you to pray both in church and at home. Prayer can uphold, support, and strengthen our churches, ourselves, and our country.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Will Rogers Says...

"Baseball teams go south every spring to cripple their players. In the old days, they only stayed a couple of weeks and they couldn't get many of them hurt in that time, but now, they go south as soon as the season is over and start training for the following season."

"Most all the men are in good shape when they go down there. But they stay till they get 'em hurt, even if it takes all spring."

More than 60 percent of all cancer cases in the United States and over half the deaths begin with malignancies at six sites: breast, colon-rectum, lung, mouth, skin and uterus, the American Cancer Society says. Thousands of lives could be saved each year if more people would learn early warning signs of these cancers and have regular checkups.

Philosopher Claims He Knows What The Bottleneck Is In Use of Solar Energy

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route one takes a peculiar look at solar energy this week.

Dear editor:

A lot of people are wondering why we haven't made more progress on solar energy, and I think I know the answer.

Here's the situation: It's no doubt true the greatest source of heat in the entire universe is the sun. We talk about oil playing out and it's true—eventually the earth is going to run dry of oil, man is going to pump it all out and

the Arab sheiks will have to go back to raising camels. But the sun, it's always there, and if it plays out, that's all she wrote anyway.

Now man has already discovered that you can heat a house, warm your bath water and cool off in summer with solar energy. With a little more investment, say the price of one aircraft carrier or two sessions of Congress, solar energy could be perfected and become as commonplace as electricity or gas or running water.

But there's one scientific hitch that's holding the whole program up. Nobody's figured out how to meter solar energy.

On the next clear day go outside and look around. See that sunshine splattered all over everything? How are you going to get it to go through a meter? And if you

can't get it to go through a meter, how're you going to charge for it?

Like it is, a man might go up on the roof of his house, capture the sun's rays and heat his home scot free. You know the economy is not going to stand for that.

Unless science can figure out a way to run solar heat through a meter, who's going to be interested in perfecting the stuff? Might as well try to charge for the use of gravity.

The only way I can figure out to get solar energy readily available to everybody is to lease the sun to a small group of farsighted people and let them charge royalty on every sunbeam that reaches the earth, with rates adjusted to see that the company gets fair compensation on cloudy days.

Yours faithfully,
J.A.

ALL "MAXIMUM RATES ALLOWED BY LAW" ARE NOT THE SAME

When a financial institution advertises it pays the "maximum rates allowed by law", it is a true statement. Insured savings rates are limited by law.

But, some financial institutions have lower maximum rate limits than Sweetwater Savings. Plus, not all financial institutions compound interest daily. So, how do you determine which financial institution pays more? It's very simple. Ask for the ANNUAL YIELD percentage.

Before you deposit your hard earned money into a savings account, compare Sweetwater Savings' ANNUAL YIELD (shown on the following chart) with

the ANNUAL YIELD of other financial institutions. WHY TAKE LESS?

SWEETWATER SAVINGS	TERMS	ANNUAL RATE	ANNUAL YIELD*
7.75%	6 yr. cert.—\$1,000 min.	7.75%	8.06%
7.50%	4 yr. cert.—\$1,000 min.	7.50%	7.79%
6.75%	30 mo. cert.—\$1,000 min.	6.75%	6.98%
6.50%	1 yr. cert.—\$1,000 min.	6.50%	6.72%
5.75%	90 day cert.—\$1,000 min.	5.75%	5.92%
5.25%	Passbook—\$5 minimum	5.25%	5.39%

McCaulley

By Mrs. Fred Kemp

McCaulley students enjoyed playday activities Friday afternoon. Featured were races, tennis, volleyball and pie eating contests. It's a real joy to see the tennis court repaired and back in use.

Mr. and Mrs. Larry Smart and Jamie of Ranger visited Mr. and Mrs. James Smart Jr. and other friends and relatives in the community last week.

Mrs. Janice Seibenhause and Jeremy of Commerce were guests in the home of Mr. and Mrs. Eldon Franklin Friday and Saturday.

Mr. and Mrs. Greg Rains and son of Abilene visited with the J. P. Self family Saturday. Mrs. Rains is the former Patricia Self.

Mr. and Mrs. Bobby Smith and sons of Mason were visitors in the homes of Mr. and Mrs. A. A. Smith and Mr. and Mrs. John Edd Reed.

Mr. and Mrs. Kenneth Ferguson and family of Muleshoe and Mr. and Mrs. Don Ferguson, Gail Don, Brenda, Barry and Marty of Spur were here to attend the memorial services of Louis Bailey.

Mr. and Mrs. W. J. Kemp of Hamlin were visitors in the homes of Mr. and Mrs. Charles Ferguson and Mr. and Mrs. Fred Kemp Sunday afternoon.

Ted Abbott, Mrs. Eula McHone, Maude Barton and other friends and relatives helped Mr. and Mrs. Willie Fancher consume Willie's latest good fishing results Monday night. Ted was the host and the others helped with the getting things ready, cooking and eating. Fish are so much better when shared with friends.

Jana Jeffrey, daughter of Mr. and Mrs. Billy Jeffrey was in charge at the Jeffrey Country Store Saturday afternoon. She was being assisted by Arvinelle Smith and Cheri McKinney during rush periods. Grandmother, Mrs. Truett Jeffrey, needed some time off to get control of a cold or sinus. Jana has had to miss the show circuit this year—perhaps she can make San Angelo and still keep in

control of her classes at Western Texas College, Snyder.

Guy Kemp of Roby was in the community Sunday afternoon and visited with Mr. and Mrs. Frank Kemp. Could have been checking on the progress of Triticale in the fields nearby. Hope he ordered a rain.
